

# Adobe® Illustrator® 10.0.1 Update Read Me

---

This Read Me document contains information about the Adobe Illustrator 10.0.1 Update.

## System Requirements:

Adobe Illustrator 10 English

## Installation Instructions:

Use the following procedure to update any existing installation of Adobe Illustrator version 10. The update installer will make the necessary changes to your application and program files to convert them to version 10.0.1.

1. Close Adobe Illustrator and all other applications.
2. Disable all virus-protection software.
3. Double-click the Adobe Illustrator 10.0.1 Update application.
4. Follow the on-screen instructions.

After completing the update and launching Adobe Illustrator 10.0.1, choose "About Illustrator..." from the Help menu and you will see "10.0.1" below the Venus image on the right side of the Adobe Illustrator 10 splash screen.

Note: This update is only for the English version of Adobe Illustrator 10. For information on other language versions of Illustrator, please visit [Adobe.com](http://Adobe.com) or your local Adobe web site.

## Overview

The following is a description of what has changed in Adobe Illustrator 10.0.1:

**PERFORMANCE:** The update addresses several performance issues and speeds up launch time, copy and paste functions, opening and saving files as well as scrolling, panning and zooming. Files with large amounts of text also open and close faster. The performance enhancements are especially evident on Mac OS with Epson printers.

**SAVING FILES TO A SERVER:** The update allows Mac OS users to save files directly to WindowsNT servers.

**PREFERENCES:** The update fixes an issue where preferences settings like scratch disks or palette positions are sometimes not preserved between sessions.

**EURO CHARACTER:** OpenType and Type 1 fonts now display the Euro symbol when saving a file in .ai or .pdf format.
